

Kirsten Lund-Jurgensen

**Executive Vice President
Patient Supply**

Joined UCB in July 2019

Appointed in 2019

Date of birth: 1959

Nationality: German

Introduction & Professional experience

Kirsten Lund-Jurgensen joined UCB in 2019. She provides global leadership for UCB's Patient Supply organization and is responsible for the company's CMC Development Sciences for Small Molecules, Biologicals & Gene Therapies, for Internal & External Manufacturing, Devices, Artwork & Packaging Development, Global Supply Chain Management, Global Engineering, Site & Facilities Management, Global Health, Safety & Wellbeing, and Environmental Sustainability.

Kirsten has 37 years of experience as an international biopharmaceutical leader. She is a German national who has held several global senior positions at Pfizer in the US. Before joining UCB her most recent role was President, Global Supply, and serving on Pfizer's Executive Committee.

Throughout her career Kirsten has been involved in major transformation programs in Manufacturing and Supply Chain Management. Her collaborative management approach helped successfully engage and inspire her many teams to grow capabilities and demonstrate high performance in developing, manufacturing, and supplying medicines to patients worldwide.

Kirsten has a PhD in Pharmaceutical Biology/Medicinal Plant Research from the University of Freiburg in Germany and a Master of Science in Pharmacy from the University of Kiel in Germany. During her career she has lived and worked in Germany, Australia, USA, and Belgium.

Kirsten is a member of UCB's Executive Committee since 2019.
